ST. ALBANS, VT.: THURSDAY JULY 30, 1868.

First Congressional District.

Well does the Middlebury Register say that affairs in the First Congressional District are "greatly mixed." There are now five candidates in the field, viz.: C. W. Willard, of Montpelier, Loyal C. Kellogg, S. M. Dorr, Col. W.G. Veasey, of Rutland, and the present incumbent, F. E. Woodbridge, of Vergennes. Mr. Willard who will be brought forward by a majority of the delegates from Washington County is a young man of decided ability, and we are free to say that his nomination and election would reflect great credit on the freemen of the District. There are fewer more earnest, Republicans in the District or the State as for that matter; and he is not mixed up with any cliqu's so that he would be in a position to do equal and exact justice to all.

Rutland County will be divided on Messrs. Veazey, Dorr and Kellogg, but it is more than probable that Col. Veazey will lead, and may in the end get the most if not all the votes of the delegates from Rutland County. He has a brilliant military record to back him and is a favorite with the "boys in blue" beside being an excellent lawyer and a highly esteemed citizen. The Register thinks that the real contest will be between Woodbridge, whose name will be presented by a majority of the Addison County delegates, and Col. Veazey. It says, should there be a general breakup in the Convention, the choice might fall upon some one not yet named, gister's article :-

It is evident that a majority of the people desire the nomination of a true man, a man of character and influence. Nothing can hinder securing such a result but negligence on the part of the better classes. Whether such shall be the case, is the question to be decided by the election of delegates at the primary meetings. Let it be decided wisely, and with reference to the best interests of the District, the State, and the this Empire is the reduction of the ar-Nation. The Cze-Rutland Independent, Bennington Banner, and Manchester Journal oppose the return of Woodbridge, without expressing any strong preference for either of the other four persons named. The following order was published on the 28th, making changes in Military Districts, and doing away with Second and Third Districts altogether. The announcement of these changes brings to mind the fact that "reconstruction" under the Congressional plan is proving quite as successful as its friends could hope, or its enemies fear. This falls like a bucket of cold water on Gen. Blair's letter. Would the Democracy reverse what has been so well accomplished, or could they do it if they would?

European Correspondence.

VIENNA, July 12, 1866. Political matters are exceedingly quiet all over the Continent of Europe and the most interesting feature in equal. Qualifications should not be ignored. Fitness first, local considerations afterwards. Mr. Morrill, while representing the 2nd District, did more for the industrial interests of Addison County and the First District, than any Member we have ever had. Why? Because having greater ability and better or northwise having greater ability and better or northwise having the way transpoled by no constraints. It is said that even a greater number of men would have been dismissed, but for the usual yearly enlistment having been postponed on account of the Hangarian Diet not having finished its task yet.—

ness with or for.

How many men, from badly oured diseases from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease-idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Discases of these organs require the use of a Directic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Directic, and is a certain cure for discases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.
